## RESIDENTIAL SERVICES

At Cabot Pest Control we understand that pests don't always interfere with just commercial properties.

We offer a variety of different residential plans to exterminate problem pests.

There are Home Protection Plans and Rental Protection Plans that could serve your pest needs.

We all know that to fix the problem, there has to be a solution. We can discuss the issues you have at your home and make a customized plan on how your problem can be solved.

## Our Home Protection Plan

### Keeps You Covered

*Pests Don't Pay Rent – Evict Them With Our Help!*

#### **How It Works:**

- Monthly contact from our licensed and certified technicians
- Free emergency services
- Record Keeping – ensures better communication
- Thorough inspections to determine rodent entry points
- Identify contributing factors, such as:
  - Construction
  - Moisture
  - Age of home
  - Entry points
  - Weather

*Uninvited Guests Are Nobody's Cup Of Tea!*

#### **Spring/Summer:**

- Earwigs, Carpenters, Centipedes, and Millipedes, are all exterior problems that our technicians can eliminate
- Provide a protective barrier of the premises to prevent these insects from breaking in!

#### **Winter/Fall:**

- A structural assessment is performed at the beginning of fall to identify any entry points
- Your technician will point out any entry points and give recommendations to prevent pest entry
